DIPLOMATES OF THE AMERICAN BOARD OF INTERNAL MEDICINE
DIPLOMATES OF THE SUBSPECIALTY BOARD OF ENDOCRINOLOGY AND METABOLISM

Consent Agreement

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) requires that health care providers provide a Privacy Notice and, optionally, may require a signed Authorization as it relates to the use and disclosure of individually identifiable health information (IIHI). This allows IIHI to be used or disclosed for treatment, payment and other health care operations (TPO) purposes only, unless the patient specifically denies authorization.

Though not necessary to have your consent to allow us to use or disclose your IIHI to others who will treat you or support in providing you quality health care services, it is important to have you consent to use or disclose your IIHI to health care plans to insure accurate and timely payments for the services rendered. The law requires that we inform you of our policy regarding the protection of your IIHI and to provide you with our Privacy Notice. We may already have a consent agreement from you, but under the new Privacy Standard, we are required to provide our Privacy Notice that specifically addresses the use or disclosure of your IIHI. Please refer to our Privacy Notice for a full explanation of how this office will protect your individually identifiable health information (IIHI).

As of September 23, 2013 under the omnibus rulemaking HHS implemented a number of provisions of the HITECH Act to strengthen the privacy and security protections for health information established under HIPAA.

Thank you for your continued confidence in our practice and for supporting our new requirements.

The following is a statement that allows us the necessary latitude to work within the new requirements.

I have been given a copy of Frank R Crantz, MD's and S Mark Tanen MD LLS's Notice of Privacy Practices, version effective September 23, 2013. I consent to the uses and disclosures of my health information as outlined in the notice.

.
